

Special SK unveiled

Eye catching new clinic and spa opens in Bury St Edmunds

The new SK Clinic + Spa held their official launch party last month. Guests were greeted by the friendly and professional SK therapists.

Each guest was then invited on a guided tour of the spa or given the chance to wander around the new premises at their leisure.

The ground floor of this new town centre premises consists of six specialised treatment rooms, each individual with their own personalised décor and mood.

Calming music could be heard throughout the entire area, including the softly candle-lit toilets. At the end of the hall, the hydrotherapy room was darkly serene but complemented with the glisten of miniature candles surrounding the bath's ledge whilst the partly-filled tub revealed charming orchid leaves gently floating on the water's surface. The very end of this hallway unveiled a surreal area to relax in; a private environment where the cool atmosphere and dim lighting tempts anyone who enters it to lose themselves in the cushioned sofas and dare to close those tired eyes for just a few minutes.

Back to reality, as you wander up the unusually-decorated staircase, you mosey into the eye-catching relaxation room situated at the front of the building. The first thing that strikes you is the most beautiful chandelier; a hundred or more perfectly-cut glass teardrops meticulously dangling over an inviting set of back-to-back comfy sofas. This is without doubt the centre-piece of the area where incandescent rays beam through the high-peaked windows providing a sanctuary of peace and tranquility secluded in this busy and popular medieval town.

This was also where guests had the choice of selective champagnes or unusual cordial mixtures whilst small trays of delectable canapés were endlessly presented by the helpful waiters wherever you turned. Passionate background music was provided by a saxophonist to complete the ambience

which oozed with a feel of subtle style and elegance. As you wandered through the hallway, again there were 6 more individualised private treatment rooms ending with two methodical manicure stations. This area is set in a peaceful, uniquely decorated area situated below with a skylight which was reflecting down silhouettes of the evening sunset.

As new guests, product house staff and press came and went, the evening was almost over but not before Daniela Chandler, director of SK Clinic + Spa stood proudly to thank everyone involved in the making of SK, and especially praised spa manager, Tonia Reed for her patience, intuition, hard work and dedication to get the SK where it is today. This was followed by the prize draw to win a gift basket of scrumptious Pevonia goodies worth £250.

All customers who had registered with SK online had the opportunity to win, but the one lucky person was Cheryl Thomas of Bury St Edmunds.

Located in the centre of the historic market town of Bury St Edmunds, the SK Clinic + Spa is situated opposite the Abbey and Great Court Gardens. Built in the late 1800's this Grade II listed building provides an overwhelming setting with breath-taking views, Tonia Reed quotes: "The SK Clinic + Spa offers a selection of over 70 treatments and packages that will allow our clients to indulge themselves like they have never done before! Our highly qualified team will ensure their visit is enjoyable, successful and most importantly, unforgettable. I am very proud to be running this new amazing spa and I will ensure SK is recognised as the most sought-after clinic and spa in East Anglia".

The SK Clinic & Spa we will be committed to providing effective answers to skincare concerns together with an attentive and individualised service so that our customers' time with us will be both relaxing and enjoyable.

Whether visiting us for the first time or as an old friend, we are confident that the SK Clinic & Spa experience will be a memorable one.
